

The Value of Medical Devices & Diagnostics

Advanced medical devices and diagnostics improve health and quality of life, relieving pain and suffering, and helping people return to work and saving billions in healthcare costs.

Medical Technologies Save Money & Improve Quality of Life

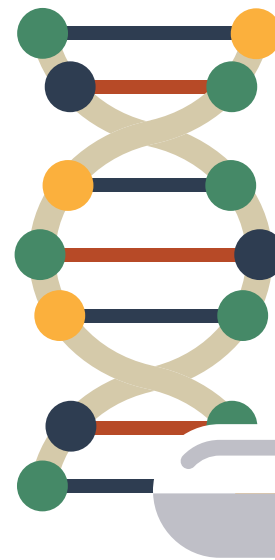

In 2009 alone,
Knee Replacements
generated
\$12 Billion
in societal savings¹

Medical
technology
generates
nearly
519,000
U.S. Jobs
and nearly
\$150 Billion
in economic output²

As part of a
comprehensive
medical regimen,
angioplasties
Save \$1,930
Per Patient
per year³

For patients using the blood
thinner warfarin, genomic
diagnostics
Reduced
Hospitalizations
by **31%**⁴

Insulin pumps
Reduce Hospital Visits
and medical appointments, saving
between \$34,000 and \$57,000 a year
per 100 diabetes patients⁵
